

DO YOU KNOW WHAT

96% INCREASED ENGAGEMENT*

LOOKS LIKE IN A CLASSROOM? **WE DO.**

Introducing the new iBoard 7082XL

*G. Lyn Morgan. IMPROVING STUDENT ENGAGEMENT. October, 2008.

iBoard®

INTERACTIVE EXPERIENCE

proven to increase engagement and retention of students, allows for a more effective learning process

COMPATIBILITY

in-class lessons can be taken to mobile phones, tablets and computers, and studied at home

LATEST TECHNOLOGY

used by the best schools worldwide, gives students a next-generation learning experience

MULTI-COLLABORATION FEATURES

allows multiple students to work together on a single project at a given time

METALLIC SCRATCH RESISTANT SURFACE

allows the use of magnets for diverse purposes

Key Features

- Latest technology permits efficient interconnection between digital video and audio systems, minimizing maintenance.
- Dual-touch features enable recognition of different touch inputs on the screen, while the touch gestures function differentiates touch actions taken on the screen, such as: zoom, erase, rotate, flick, and others.
- Integrated dual-touch system provides personalized solutions such as:
 - Using the dual-touch features in many programs without the need to use an input device such as a mouse or a keyboard.
 - Customizing touch actions on the screen to personalize them in a unique way.
- Open system compatibility allows for easy connection to an external computer running Microsoft Windows, Mac OS, or Linux operating systems.
